

# FR2569666

**Device enabling at least two products to be kept separate from one another, and to be mixed subsequently, particularly at the time of use**

**Patentanmelder:**

OREAL (FR)

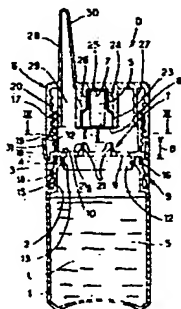

**Erfinder:**

GONCALVES ANTONIN

<b>Publ. Datum:</b> 07.03.1986	<b>B65D81/32</b>

<b>Derwent Patentfamilie:</b> FR2569666 A	
<b>Patentklasse (IPC):</b> B65D25/08	

## Zusammenfassung:

The device comprises a container 1 closed by a cover 6. The container delimits a first compartment 5 for a product L, while the cover 6 delimits another compartment 7 for another product S. An intermediate part 9 is locked in rotation on the neck 2 of the container. This part 9 comprises means capable of tearing a film 8 which closes the compartment 7 of the cover. Means of connecting 19 with the cover 6 are provided on this part 9. The pushing-in of the cover 6 on the intermediate part 9 is partial during storage whereas, at the time of use, a complete pushing-in is carried out in such a way as to cause the tearing-off of the film 8 by the means T. <IMAGE>

## Derwent Titel:

Component separating hair dye container - has liq. recipient and lid supported membrane sealed solids capsule breached by intermediate diaphragm teeth

## Derwent Zusammenfassung:

FR2569666 The binary container has a liquid (L) containing base (1) with a neck (2) onto which is fixed an intermediate moulding (9). The moulding has an internal sealing skirt (12) and a diaphragm (10) with liquid-escape

holes (11) and one or more central teeth (21). A threaded, upper cylindrical portion is threaded to receive a cover (6).  
Pegs and grooves (4,16) prevent the moulding rotating.  
A guarantee band (31), when removed, permits the cover to be screwed down from an initial position to a lower one.  
In doing so, a capsule (26), supported in a ribbed pocket beneath, has a lower aluminium sealing foil pierced by the teeth permitting a powder or solid(s) to mix with the liquid (L).  
USE - Container for products such as hair dye maintaining two components separate until just before use. (21pp  
Dwg.No.1/6)
